

Bronwin & Abbey Ltd

1.22 Environmental Policy Statement

At Bronwin & Abbey Ltd we are committed to setting the highest of environmental standards and manage our business operations and forestry activities in compliance with all relevant environmental legislation and industry standards.

We aim to consider the environmental impacts of all our activities and services and examine ways in which these can be improved to enhance environmental benefits.

Through implementing our policies, we aim to:

- Maximise customer returns in a sustainable manner whilst setting high standards for safety, quality and customer interaction.
- Promote awareness of environmental issues and encourage the implementation of best practise, leading by example, with our staff, clients and contractors.
- Use sustainable and responsibly sourced materials and encourage our suppliers and contractors to improve their environmental performance.
- Prevent any incidences of pollution arising from our forestry operations and services.
- Consciously reduce net carbon emissions.
- Protect and conserve biodiversity, landscape and cultural heritage.
- Improve energy conservation and sustainable waste management in both our forest and office-based activities.

We are committed to the continuous improvement of our environmental and sustainable performances and endeavour to frequently monitor our progress.

This is achieved by setting challenging targets and promoting environmental awareness to staff, clients, contractors and stakeholders.
